

Bulletin of the Orchid Society of Canberra, Inc.

Petochilus fuscatus

GPO Box 612, Canberra, ACT, 2601, Australia
Volume 23, Number 6

Nov-Dec 2008

Regular monthly meetings

Monthly meetings of the Society are held on the first **Wednesday** of each month (except January) at the **Seventh Day Adventist Church, corner Gould and Macleay St. Turner**. Meetings commence at 8:00pm with the library and trading table open from 7:30pm.

November 2008: Kelli Gowland on fungi and orchids

December 2008: Christmas Party

Orchid Society of Canberra Events

Horticultural Society of Canberra Nov 15 & 16
Wesley Centre, National Circuit Forrest ACT

Upcoming Orchid Events

Sapphire Coast Orchid Club: Nov 7-8

Australian Native Orchid Show
Twyford Hall, Merimbula

Hills District Orchids Open Day: 7 December
183 Windsor Rd, Northmead, NSW

REMINDER of 2008/9 DUES

This is a reminder that our new fiscal year started on the first of May and therefore, Annual Subscriptions are due at the next meeting. Please either send your dues check to Treasurer, P.O. Box 612, Canberra or bring it or money to the next club meeting to renew your membership. Our fiscal year ended April 30.

Annual Subscriptions

\$25 single, \$30 joint, \$5 junior membership.

President's Comments

Once again we have successfully completed our Spring Show. Despite the last minute change in venue Saturday attendance was similar to previous years and as always we had our first hour buyer madness. Sunday unfortunately was not as well attended but there may have been other reasons – the Rugby League grand final perhaps being one. Thanks to everyone who participated in some way either by benching plants or helping out with the door, helping set up, floor walking or on the sales table. Special thanks to all those who brought in sandwiches, slices and cakes in order to assist Audrey Rough with the very different circumstances this year. Many thanks again to Audrey and her helpers with the Orchid Café. We are booked into St John's Hall for next

year. Our vendors as usual help to attract members of the public to our Shows.

I would also like to thank Bill Ferris and Ben Walcott for putting together the display and did the talks at Floriade this year. Also thanks to those members who contributed plants or assisted with the display. The venue this year appeared to work well.

Our speaker for November is Kelli Gowland a member of the Society who earlier this year submitted her thesis, which has now been accepted for her PhD on a study of orchids. Our December meeting is our Christmas Party and everyone is invited to come along and bring a plate of food for everyone to share. The Society will provide soft drinks and tea and coffee. We extend a great welcome to all our new members : Joan Powell, Merylyn Congdon, Craig Allen, Bryan Shanahan, Susi Butler any others I may have missed since becoming President.

Committee Members

President-- Robyn Noel	6258 5734
Vice President- Ben Walcott	6161 2742
Treasurer- Bill Ferris	6297 5635
Secretary- Barbara Corsini	04 24836108
Robert Bush	6297 1427
Kevin Dawes	6259 6405
Jim Harper	6254 9618
Scott Mann	
Robert Rough	6241 2729

Committee meetings:

Nov 10: Kevin Dawes

Jan 10: Walcotts at 3:30 PM

Champion Seedling: *Lc. Minisong* grown by Robert Rough

The Horticultural Society of Canberra Show

The November show will be **15-16 November** and held in Lancaster Hall of the Wesley Centre on National Circuit, Forrest. To enter plants, call **Jim or Robyn Donlan** at 6255 1371 or Email at jdonlan@internode.on.net or call **Jan Livingston** on 6242 9665 **at the latest by 8 PM** on the Thursday before the show. Plants should be brought to the hall on Friday before the show from 6:00 – 10:00 PM. Since we only have one show each year, this is another opportunity to display those plants that you have in bloom. You might win a prize! It is also good for the Society to show off to other plant lovers the diversity and quality of the plants that we grow and to convert some gardeners to orchid growers. The schedule is as follows:

80. One *Cymbidium*
 81. One standard *Cattleya* alliance
 82. One intermediate *Cattleya* alliance
 83. One miniature *Cattleya* alliance
 84. One *Cattleya* species
 85. On *Paphiopedilum* alliance species
 86. One *Paphiopedilum* alliance hybrid
 87. One Vandaceous alliance
 88. One *Oncidium* alliance
 89. One native orchids
 90. One Pleurothallid species
 91. One Pleurothallid species
 92. Any other orchid species
 93. Any other orchid hybrid
- Champion Orchid from classes 80-93** Ribbon plus \$2

September General Meeting 2008

Attendance: 52

Visitors: Morgan Anderson

Apologies: Mark Fraser, Sandra Corbett, Jim Harper, Barbara Corsini, Scott Mann

Announcements:

1. Due to a scheduling problem, our show is being moved to the CIT Reid instead of the church hall. Flyers are available for distribution.
2. The Horticultural Society of Canberra Shows are in September, October and November. While the announcements were in the Bulletin, the schedule was not. It is available from Robyn Noel or Ben Walcott.
3. Robyn announced that she has found a place that will make Orchid Society of Canberra shirts. Some will be ordered.
4. Bob Evans has a frame for a Darby greenhouse, 8 ft X 16 ft available. Anyone who is interested should see him.

Guest Speaker:

The night's speaker was Bill Miles from Orchid Species Plus. Bill is a plumber/pipe fitter by trade, very useful for greenhouse design and construction, and has created a large complex of greenhouses in Victoria north of Melbourne. His climate is rather like that of Bendigo not dissimilar to Canberra. He has specialized in orchids from South America and has been growing them for

many years although in commercial quantities only fairly recently. He emphasized that one should grow plants that you like and not necessarily plants that the Judges like. He recently had a fire that burned many Styrofoam boxes and destroyed a number of his plants, some of which he had been growing for years. On the bright side, it made him replace all his bubble wrap insulation. He described how he had set up his greenhouses. In some areas, they were attached to parts of the house and therefore did not get as much light as other parts. He installed panels of builder's insulation which had silver paper on one side to reflect the light. He suggested that many hydroponic shops sold reflective material like this. He has shade cloth over all his houses. He has found that having it raised 1 ft or so above the glass roof provided more cooling in summer. He heats his houses with a wood fired boiler that sends hot water to a heat exchanger that blows hot air into the greenhouses. To help prevent drying, both with heating and cooling, he has a large "sock" with holes attached to the heat exchanger so there is not direct blast of hot air to the plants. He also has a misting system that runs during the day to provide humidity but does not wet the plants directly. He emphasized that one should, ideally, never have plants hung above one another. Thus, he recommends keeping the benches low because you shouldn't put plants below, so it represents wasted space. He uses roller benches. He has a pipe frame on which pipe rollers, made of 1 ½ inch water pipe, rest. On top of the roller is the bench top of pipe and wire mesh. This means that you can easily move the whole bench top from side to side and thus eliminate one passageway. He talked about mounting plants and pointed out that we all tend to put plants on mounts that were too small and did not allow for growth of the plant.

Bill then talked about a number of different plants that he grew. He pointed out the diverse range of flower types among the Bulbophyllums. He felt that *Draculas* were easier to grow than *Masdevallias*. He showed a large specimen of a *Lycaste* growing in a basket with lots of flowers hanging under the basket. He pointed out that in time the plant produced fewer flowers and thus needed to be repotted. You have to keep track of your plants and even large specimen plants need to be broken up and repotted to keep them flowering at their best. Attention to detail is important. He talked about *Sophronites coccinea* and said that it was hard to grow. It does quite well in sphagnum and polystyrene but shouldn't be watered too much. He uses "Plant Starter" on all his plants once or twice a month. He uses 2 caps per 10 liters during watering. He finds that it helps all plants grow strong roots. Because his greenhouses are damp, he has some algae problems. He recommends using an "algacide" that you find in the swimming pool section of hardware stores. Do not use chlorine as that will kill the plants. Bill then showed how to use his wire flower stakes. He takes a wire and powder coats it and then winds it into a spring-like shape. You can then pull it out forming a semi-coiled support which works well for *Masdevallias* as well as other tall flowering plants.

Secretary's report:

There was no secretary's report

Treasurer's report:

The bank balance is just over \$21,000

Report moved by Bill Osmand, seconded by Leander O'Connor and accepted by all.

Other business:

Bill Ferris reviewed the registration process for plants for the October 4 & 5 Show. The week before the show, each exhibitor should prepare a list of all plants including their classes that they may bring. If in doubt, list the plant. Preferably send the list to Bill via Email through orcsoc@geocities.com or bring it to the meeting on October 1.

The Society will again present at Floriade on Saturday and Sunday Sept 13 & 14 at 11:00 AM. It would be helpful if any members could stop by either before, during or after the presentation to help answer questions.

Raffle winners: Leander O'Connor, Bill Osmand, Tony Lanza, Nita Wheeler and Bob Evans

Lucky door prize: Jane Wright

Minutes submitted by Ben Walcott

October General Meeting 2008

Attendance: 44

Apologies: Lynne and Brian Phelan, Mark Clements and Anne Mackenzie, Theo and Jenny Shutz, Peter and Sheila Cudmore, Ted Govier.

Visitors: Joan Powell, Ivan Vesconi, Sal Cacoondo.

Announcements etc:

- The Show is on and members are encouraged to sign up to help out.

Guest speaker:

The night's speaker was Sam Tsui.

Sam grows slipper orchids in Chicago U.S.A. Winter in Chicago can have temperatures below 30 degrees C, with summers in the 30's and 80% humidity. For a long time Sam grew the orchids in his basement under lights.

Growing under lights gives a grower the best control.

Sam spoke to us about how he breeds his orchids, showing us many pictures of the breeding selections and the end result. In the U.S.A., because the environment is completely controlled, the seedlings of multifloral slippers can be flowering in 5 to 6 years. In Australia the same plants take about 10 years. The breeding is a long process, so Sam recommends to only buy and use the very best plants for breeding.

The conditions Sam grows his orchids in include the correct balance of heat and humidity. Slipper Orchids need lots of both but disease will arise if the balance is out. He also gave us some specifics for growing the slippers:

Light/shade – Natural light at around 500 – 1500 fc. This would equate roughly with shadecloth cover of 80% summer and 35 – 40% winter.

Artificial light should cycle for 16 hours of light per day.

Water Quality/watering – High quality water needed.

Water every 3 – 7 days. Sam waters in the morning and waters the foliage at the same time. Keep moist, not soggy. Sam believes hand watering is the best.

Fertilising – NPK 30-10-10 in spring and summer. NPK 20-20-20 in autumn and winter. NPK 10-50-10 for bloom. Fertilise weakly and weekly, about 150ppm (1/4 strength of recommendation of orchid fertilisers). Water before fertilizing to prevent burning the roots.

Temperature – Ideal for most is around 12 – 27 degrees C. Low limitation is 4, upper limitation about 32. Prefer a night difference of about 7-10.

Mix – 3 pts fine (1-1 ½ cms)

- 3 pts expanded clay
- ½ pt perlite
- ½ pt charcoal (#3 or #4)
- ¼ cup of dolomite per 10 gallons of mix

Repot every 12 – 24 months, more often for seedlings.

Secretary's report:

Publications – Orchids Australia (Aug), Australian Orchid Review (Sept-Oct), . **Newsletters** – OSNSW Report moved by Bill Osmand and seconded by Ben Walcott.

Treasurer's report: Balance is \$20,380. Moved by Nita Wheeler and seconded by Ben Walcott.

Raffle winners: Jim Harper, Kevin Dawes, Bob Bush, Quin Yuen Chung, Janis MacDonald.

Lucky door prize: Leandah O'Connor.

Orchid of the Night and Judge's Choice for species in September. *Epigeneium lynnii* grown by Mark Clements

Judge's Choice for hybrid in September
Coel. moreana X cristate grown by Don Chesher

The venue at CIT, getting ready to open

The Champions Table at the Show

Photographs by Bill Ferris

Orchid of the Night and Judges Choice for hybrid in October also Champion Oncidium Alliance at Show.
Milt. Firewater Red Butterfly grown by David Judge

Champion Orchid of The Show, Champion Species and Champion any other orchid. *Bulbophyllum graveolens*
 Grown by Terry and Julianne Turner

Champion Cymbidium. *Cymbidium* Scallywag 'Sweet Charms' grown by Brian and Lynne Phelan

Champion Pleurothallid Alliance. *Masdevallia* Copper Angel 'Highland' grown by Theo and Jenny Schutz

Champion Specimen Orchid. *Masdevallia* Cuzco Gold Grown by Jane Wright

Champion Vandaceous Alliance. *Phalaenopsis* Sasquatch. Grown by Mark Fraser and Sandra Corbett

Photographs by Mark Fraser

Champion Paphiopedilum Alliance. *Paphiopedilum* Treasure Island 'Perfect Pink' X *Paph. maudiae* 'Flaming Ruby' grown by Don Chesher
